

Journal of Industrial and Intelligent Information

CONTENTS

Volume 1, Number 3, September 2013

- A Detailed Study on Information Retrieval using Genetic Algorithm 122
Md. Abu Kausar, Md. Nasar, and Sanjeev Kumar Singh
- Role and performance of Real Time, Web based Loan Generating Systems (LGS) towards Paper-less Banking 128
Hammad Khan
- Behavioral Analysis of Students' Login Credentials Management in Mobile Environment 132
Norliza Katuk, Mohamad Subri Halim, Hatim Mohd. Tahir, Amran Ahmad, and Sharmila Mat Yusof
- Genetic Algorithm for Optimization of Design Variables in 4th Order Sallen Key High Pass Filter 139
Kwang Shenq Eu and Siew Chin Neoh
- Exploration of Current Trend on Blur Detection Method Utilized in Digital Image Processing 143
Boon Tatt Koik and Haidi Ibrahim
- Finding Days-of-week Representation for Intelligent Machine Usage Profiling 148
Chiming Chang, Paul-Armand Verhaegen, Joost R. Dufrou, Madalina M. Drugan, and Ann Nowe
- Modified ITU-R Rain Attenuation Prediction Model for a Tropical Station 155
Abayomi I. O. Yussuff and Nor Hisham Haji Khamis
- A Development of Computer Programming Analyzer: A Case Study on PHP Programming Language 160
Suchot Sinthsirimana and Patcharin Panjaburee
- Customized Casing for Capturing Poorly Illuminated Face Images with Low Level of Reflectance Components ... 165
Pin Yang Tan and Haidi Ibrahim
- Overview of Biomedical Relations Extraction using Hybrid Rule-based Approaches 169
Rabiah A. Kadir and Behrouz Bokharaeian
- New Educational Approach to Direct Experience through Embedded System Design and Implementation 174
Kenji Ohmori, Xiao Fan, and Ryo Mizutani
- A Process for Building Ontology Ennumbers from Various Databases 179
Nurul Aswa Omar, Shahreen Kasim, and Rathiah Hashim
