#### Machinery Manufacturing and Industrial Applications

Dynamic Buffer Management for Raw Material Supply in the Footwear Industry.....1

*John Reyes, Kevin Alvarez, and Rosa Vasquez*

Work Wearing Protective Clothing in Hot Environments: Lessons Learned from the Development of Firefighter Personal Protective Clothing Standard Test.....9

*Ilham Bakri and Yutaka Tochiara*

Application of AHP in the Analysis of Flexible Manufacturing System .....15

*Rajveer Singh, Parveen Sharma, and Sandeep Singhal*

The Research of Fracture Connectivity Effect on Shale Gas Transport Using Discrete Fracture Model .....21

*Lidong Mi, Hanqiao Jiang, Ye.Tian, Junjian Li, and Shuaiwei Ding*

Optimization of Well Location, Type and Trajectory by a Modified Particle Swarm Optimization Algorithm for the PUNQ-S3 Model .....27

*Shuaiwei Ding, Hanqiao Jiang, Junjian Li, Guangwei Liu, and Lidong Mi*

A Responsive Framework for Optimal Advertising Policy in the Digital Music Market .....34

*Tobey H. Ko and Henry Y. K. Lau*

Defective Reduction from Solder-Paste Strains on a Flexible Printed Circuit .....41

*Chantach Luxnanan and Oran Kittithreerapronchai*

Two Stage Supply Chain Enterprises' Production and Reduction Decision-Making Mechanism Research Considering Emission Trading .....46

*Jianan Sun, Zhongdong Xiao, and Guanghui Zhou*

Green Support for Fuel Use-Blends to Extend Deadlines of Comfort.....51

*Mahesh K. Dalal*

A Calculation Method of Stage Division in Steam Drive Considering Heat Transfer .....56

*Bin Hu, Tingting Pan, Jingwei Bao, and Lingbin Lai*

AHP Based Methodology for Selecting Section of Subway Construction in Thailand .....61

*Phikid Vayophad and Warapoj Meethom*

Lattice Boltzmann Simulation of Fluid Flow in Complex Porous Media Based on CT Image.....65

*Zi-Sen Wu, Ping-Chuan Dong, Gang Lei, Shu Yang, and Nai Cao*

#### Information Technology and Control Engineering

An Integrative Social Network and Review Content Based Recommender System .....69

*Haojie Ma and Dongsheng Che*

Modified Delphi-AHP Method Based on Minimum-Cost Consensus Model and Vague Set Theory for Road Junction Control Method Evaluation Criteria Selection.....	76
<i>P. K. Kwok and Henry Y. K. Lau</i>	
The Effect of Cost Accounting System Inventory on Increasing the Profitability of Products .....	83
<i>Reza Azad, Rahmatolla Azad, Khadijeh Azad, and Fatemeh Akbari</i>	
The Technology and Realization of Platform System of Tropical Agricultural Environmental Remote Monitoring Based on Internet of Things .....	88
<i>Meng Meng, Enping Liu, Xiaofei Zheng, and Junfeng Zhan</i>	
Experiment and Numerical Studies on the Atomization of a Swirl Feed Nozzle .....	92
<i>Qilong Huang and Jinxian Li</i>
