

Journal of Industrial and Intelligent Information

CONTENTS

Volume 4, Number 4, July 2016

Mathematical Modeling Applications

Forecasting the Exchange Rate of US Dollar-China Renminbi Using Hybrid Techniques of Statistical and Soft Computing Approaches.....235

Yuehjen E. Shao, Chien-Chin Li, and Po-Yu Chang

Prediction and Statistical Control of a Piecewise Linear Profile241

Sanaz Sharifi Ghazvini and Hamideh Razavi

The Research of Pinpoint Formation Pressure Test Method and in the Application of Jingbian Gasfield247

Huang Xing and Li Tiantai

Industrial Applications

Classification of the Mixture Disturbance Patterns for a Manufacturing Process252

Yuehjen E. Shao and Po-Yu Chang

Scheduling Aluminum Billet Casting Lines: A Case Study257

Rim Larbi, Abrar Khalaf, and Nadjib Brahimi

Optimization of Hydraulic Fracture Parameters for Low-Permeability Condensate Reservoir.....263

Lin Hun, Zhang Shicheng, Wang Fei, Yu Baihui, and Liu Hongchang

A Column Experiment to Study the Drying Behaviour of Mature Fine Tailing268

Anis Roshani, Mamadou Fall, and Kevin Kennedy
